22 July 1971

MEMORANDUM FOR: Chief, Testing Branch, LS/TR

SUBJECT : Proficiency Test Results in Computer Runs

It is our understanding that it will be possible with the new SIPS system to record separate dates for both reading and speaking in the computer records. Since this is not possible with the current system, we recognize that there will be some inaccuracies in the record when a test is given for only one of the two skills. For the time being, however, we are willing to accept those inaccuracies. Do not hold back proficiency test results therefore, but send them to OP/QAB as soon as a test has been given.
